# SeeSaw

- Seesaw is a simple way for teachers and students to record and share what's happening in the classroom.
- Gives students a place to document their learning. Each student gets their own journal and will add things to it throughout the year building their portfolio of work.
- When there are new Seesaw posts, families can be notified via app notification, email or SMS.
- Parents are only notified about their own child's work and whole class shared work.
- All data is secure and safe.

FAMILY

Download the Seesaw Family app, then stop by the Help Desk to get your child's personalized QR code with Mrs. Mastrianni.
